EXPERIENCE

Gateway Group of Companies

Oct. 2024 – Present

Software Engineer

India

- Worked on the **Gateway Internal System (GIS)**, an enterprise ERP platform supporting **1,000+ users** across HR, Learning & Development, and administrative workflows
- Designed and optimized **50+ RESTful APIs** in a microservices architecture, reducing latency by **40%** and improving system reliability under load
- Built an **AI-assisted module** that extracts text from PDFs and uses **OpenAI APIs** to generate contextual questions, improving content accessibility and learning workflows
- Automated previously manual **HR and training workflows** (approvals, eligibility checks, validations) directly within the system, driving a **35% increase in training completion rates**
- Enhanced system scalability and security using **Docker, JWT, and RBAC**, ensuring consistent deployments and controlled access across services

Movie Ticket Reservation System (Training Project)

- Built a secure, full-stack reservation system with **JWT-based authentication** and **role-based access control (RBAC)** to ensure data integrity and user authorization
- Improved application performance by **25%** through optimized database queries and transaction handling
- Designed a normalized **relational database schema** to ensure data consistency and support scalability across booking workflows

PROJECTS

Real-Time Chat System (Custom WebSocket Implementation) | [Github](#)

- Implemented a **WebSocket protocol from scratch** using core Java and networking concepts, enabling full-duplex communication between client and server
- Built a real-time chat application with **custom connection handling, message routing, and session management** supporting multiple concurrent users

AI Workflow Automation System | [GitHub](#)

- Built backend workflows using **Gemini APIs** for text-based automation including summarization and question generation
- Applied **prompt engineering** to improve response quality and created reusable AI service integrations

EDUCATION

Government Engineering College, Rajkot

Nov. 2021 – May 2025

Bachelor of Engineering in Computer Engineering

Gujarat, IN

- **Coursework:** Data Structures, Algorithms, Databases, Computer Systems, Machine Learning
- **Achievements:** LAKSHYA Hackathon Winner (SIH Qualifier 2023 & 2024) | Top 25 CodeGenie Hackathon | Postman API Student Expert

SKILLS

Languages : Java, C++, C, SQL, TypeScript (Angular.js)

Backend & Concepts : Spring Boot, REST APIs, Microservices, DSA, JWT, RBAC

Databases & Tools : MSSQL, MySQL, Docker, Git, Linux, Postman, Microsoft Dynamics 365
